

## EXAMPLE OF LOGICAL FRAMEWORK SPECIFIC FOR THE PROJECT

	Description	Indicators	Baseline	Targets (mid-term)	Targets (final)	Sources and means of verification	Assumptions
Objective related to GCF RMF Impact Areas Impact	<i>The long-term change which will stem from the project/programme in relation to the GCF RMF Impact areas selected in the FP template</i>	<i>Measure the long-term change to which the project contributes. To be presented disaggregated by gender when possible.</i>  <i>No need to duplicate the indicators already presented in SAP FP template Section D.</i>					
Outcome(s)	<i>The effect that can be attributable to the project, in relation to the GCF RMF outcome results indicated in the FP, which will be obtained in the short-medium term.</i>  Please number each outcome (Outcome 1, Outcome 2,...)	<i>Measure the change in factors determining the outcome(s).</i>  <i>No need to duplicate the indicators already presented in SAP FP template Section D.</i>  <i>To be presented disaggregated by gender when possible.</i>	<i>The starting point or current value of the indicators.</i>	<i>The estimated value of the indicator at the mid-point of the implementation</i>	<i>The estimated value of the indicator at the completion of the implementation</i>	<i>Sources of information and methods used to collect and report.</i>	<i>Externalities and factors outside project management's control that may impact on the outcome.</i>
Outputs	<i>The direct/tangible outputs (infrastructure, goods and services) delivered by the project.</i>  Please associate each output to its closest associated outcome  Output 1.1. (related to Outcome 1)  Output 1.2. (related to Outcome 2) Output 2.1.	<i>Measure the change in factors determining the outputs(s).</i>  <i>To be presented disaggregated by gender when possible.</i>	<i>As above</i>	<i>As above</i>	<i>As above</i>	<i>As above</i>	<i>Externalities and factors outside project management's control that may impact on the output</i>
